

## Press Release

Japan Automatic Machine Co., Ltd. (J.A.M.) and DINEFER Engenharia E Sistemas Industriais, S.A., (DINEFER) have agreed a Global Technology and Supply Partnership.

The Partnership will result in a global offering of solutions for the wire processing industry for cutting, stripping, crimping, and testing equipment.

As a result of the Technological Partnership, customers of both companies will have access to a wide portfolio of existing and new product solutions, and benefit from the shared technological experience and know-how of both companies.

As a result of the Supply Partnership, customers will have access to local technical service representation, and also to on-time delivery of critical parts. The Supply Partnership will offer customers a worldwide coverage of products and services. Both companies have the future intention to extend this Supply Partnership with a Production Partnership in Europe and Asia, in line with customer requirements as a result of the changing global supply dynamics following the COVID-19 pandemic.

DINEFER and J.A.M. are looking forward to increasing their value-add offer to their customers through this Partnership.

DINEFER, founded in 1988 is a well-established and highly reputed company operating globally, engaged in the business of design, production, and commercialization of test systems, mainly for the wiring harness industry, but also for the industry in general.

The company has four manufacturing locations in Portugal, Tunisia, Slovakia and Morocco and technical support representation in India and Romania.
