

PLUG INSERTION MACHINE

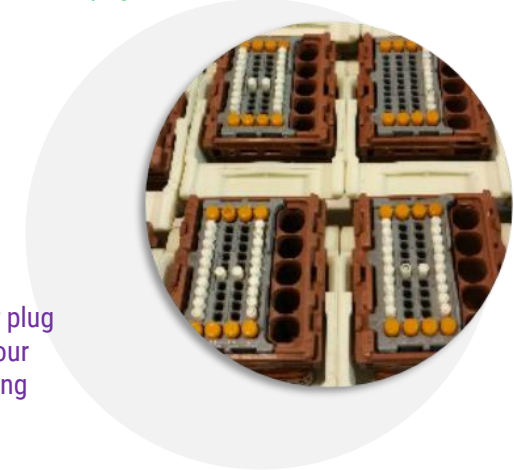

AUTOMATIC PLUG INSERTION

The development of our Plug Insertion Machine was made with rounded plugs in mind

PIECES OUTPUT

- Insertion rate up to 1.2s per plug
- Up to 300 connectors per hour
- Real time insertion monitoring

Main Features

- Automatic plugs insertion
- Assures the height and correct positioning of the plugs
- Connectors feeding ramp (up to fifty connectors)
- Exit ramp for automatic connectors output
- Easy setup for different plugs configuration
- Red tower light flashes to signal empty feed ramp
- Touchscreen interface

Specifications

Connector ID: 7287432630
Plug ID: 71583738

Voltage: 230 VAC / 50 Hz
Max. Current: 16A
Air Pressure: 5 to 6 Bar
(Pmax=7 Bar)

Dimensions: 1200 x 1000 x 1075 mm
Weight: 171 Kg
